Fix my bookmarks, please.

Tyler Davis

Introduction

This PDF has several sections which automatically become a TOC and bookmarks in a PDF. However, the original file's co-ordinates are incorrect, due to some odd error within **pdfroff**.

Methodology

I created this PDF by writing a **Markdown** file and then converting it to a PDF with **Pandoc**, using **pdfroff** as my PDF engine.

Solution

To fix the bookmark error, I used a bash script which utilizes **awk** and **sed** to do my dirty work for me.

Conclusion

It works!
